## Overview

The EMT program at Patriot Training meets and exceeds the National and State Standard Curriculum.

Our course prepares the student for successful completion of the Massachusetts and National examinations, and for a successful career in EMS.

The course is offered in a 15-week format, with distinct lecture and practical components. Theory and practice are merged weekly to help students with mastery of concepts.

## Faculty

All of our Faculty are current EMS Providers who provide a practical approach to learning.

Many of our faculty members also serve on staff at local college EMS programs.

Faculty members are available for extra help during the course

## Program Requirements

The student must:

- Be 18 years old at the time of the state examination
- Be able to lift 100 lbs.
- A High School Graduate or GED

## Program Objectives

The EMT Program teaches the student to:

- \* Perform a complete pre-hospital patient assessment
- \* Explain current legal aspects of pre-hospital care
- \* Identify and treat common medical emergencies
- \* Identify and treat traumatically injured patients
- \* Identify and treat special patient populations (OB/GYN, Pediatrics, environmental emergencies, Geriatric)
- \* Identify the properties of approved pharmacological agents
